PHILADELPHIA, APR. 29, 1927.

TRADE CONDITIONS: Continuous rains throughout the Middle West which preceded the present flood conditions, prevented farm work to a large extent and restricted the use of seeds for early Spring planting. The result is now shown in reduced quotations here and there on some of the higher priced items on which a surplus is being carried, while on the other hand planting of late sown crops will be heavy and prices on such crop seeds are advancing.

LAWN SEED: Because we handle in large quantity all items that go into lawn grass mixtures, we are well fitted to supply superior grades at the lowest possible prices. Demand increases from year to year. Merchants should have a care lest they lose their proportion of this profitable business.

RED CLOVER and ALSYKE: Some lots Domestic Clover and Alsyke are still to be found in various spots where demand was restricted, making available stocks at somewhat lower prices than had been anticipated would rule at this late season. French Red Clover market remains about unchanged. Many of our customers are ordering from day to day as needed so as to avoid carrying over surplus stocks.

ALFALFA: Demand has been large in the East, but restricted somewhat in the middle West. Prices about unchanged. Investment for summer seeding looks attractive at these values.

TIMOTHY: Spring demand has been good throughout the East. Market about unchanged. Prices are lowest for several years past.

HAIRY VETCH and CRIMSON CLOVER: Prices abnormally high. Farmers not inclined to pay high cost per acre for seeding, which averages about \$6.50 per acre for Hairy Vetch, and \$4.50 per acre for Crimson Clover.

SUDAN GRASS and MILLET: Market strong and advancing due to expected large demand for these items.

SOJA BEANS: A large acreage will be sown to Soja Beans this season and prices may later work higher. Today's prices are very reasonable.

COWPEAS: Prices are considerably lower than quotations a year ago and Cowpeas will probably be used more largely than heretofore.

SEED CORN: Our stocks are of the 1925 crop. Some varieties are becoming exhausted. We do not handle Western grown seed corn due to the uncertainty of results when grown in this section. We suggest placing orders promptly for good seed corn.

Prices quoted below are to-day's values f. o. b. Philadelphia. Samples sent promptly upon request. Bags not returnable

ALFALFA { 60 LBS. PER BU. 16-20 LBS. PER ACRE }			
AMERICAN GROWN NON-IRRIGATED, FREE OF SOUTHWESTERN			
	PER 100 LBS.	PER BU.

NORTHERN FRENCH (1% Stained Green)			
QUAKER	30.00	18.00	
Choice	29.17	17.50	

Quotations above are for French Grown Red Clover seed recleaned over various processes to remove impurities peculiar to foreign grown seeds. French Clover seed may be sold at much lower prices in original heavy burlap sacks. It has always been our policy, however, to oppose the distribution to the farmer of foreign grown Clover seed from original imported packages account of the danger of sowing noxious weed seeds.

ALSYKE { 60 LBS. PER BU. 8-10 LBS. PER ACRE }			
Puritan	33.33	20.00
